

PEORIA  
RECOVERY  
PROJECT

## WHAT IS PEORIA RECOVERY PROJECT?

Peoria Recovery Project is an ongoing, nonprofit initiative that aims to raise awareness, break down stigmas and identify available resources for individuals suffering with substance abuse disorder and/or mental health issues. Some of those resources include:

- Treatment Providers
- Counselors
- Natural Health & Wellness Resources
- Prescription Medicine Disposal
- Naloxone Training
- CPR Training
- Job Readiness Resources
- Educational Resources
- Scholarships/Financial Assistance

The idea for an annual event was sparked by a mother who lost her son to an opioid overdose, and wished there had been more resources and support available for individuals struggling with addiction, and for their families. Her impassioned vision quickly brought a plan to fruition and gained the support and partnership of many local stakeholders and community leaders.

Whether an individual is seeking treatment/wellness resources, currently in recovery, or simply interested in learning more about addiction and mental health issues, our annual event is one you won't want to miss! Please join us in our mission to **REACH** a solution:

### RECOVERY

Bring together as many resources as possible to provide recovery and wellness options that align with individual needs.

### EDUCATION

Curb the stigma mental illness and addiction carry so we can shift the focus to rebuilding and healing.

### ADVOCACY

Spread our dedication to finding a solution for these social issues, inspiring other communities to unite.

### COMMUNITY

Stand together to show those affected they are not alone in fighting this battle to reclaim their lives.

### HEALTH

Provide financial assistance for treatment options, ensuring individuals get the help they need.
