Children's Mental Health Initiative CHMI 3.0

No Wrong Door

APRIL 26, 2021

CHMI 3.0

Overview

- The Children's Health Initiative or CHMI 3.0 is a need identified by the Greater Peoria Mental Health Initiative, led by UnityPoint Health Methodist Medical Center.
- The overall goal is to provide children and their families, with lived experience, a formalized System of Care in Peoria, Tazwell, and Woodford Counties.

What is a System of Care?

- Broad, flexible array of effective services and supports for a defined population
- Organized into a coordinated network, integrates care planning and management across multiple levels
- Culturally and linguistically competent and trauma-informed
- Meaningful partnerships with families and youth at service delivery, management, and policy levels
- Supportive policy and management infrastructure
- Data-driven

Logic Model

Program: Greater Peoria Mental Health Initiative

Logic Model

Inputs	Outputs		∆ Outcomes Impact		
	Activities	Participation	Short	Medium	Long
	7		▼ (0 - 6 months)	(6 - 18 months)	(18+ months)

pehavioral health services in the regional school systems Strong technical infrastructure CHF resource guides for implementing	methodology and create a regional children's mental health dashboard to efficiently share outcome metrics with all regional partners		going communication and information sharing with community		Long term sustainability plan and financial mode

Approach: No Wrong Door

Coordinated Care

- Any child and their family can be entered into this new system of care through any provider
- They will receive coordinated care management across all the providers that are a part of this System of Care.

Statistical Motivators

- 2019 Tri-County Area CHNA Survey: Residents were asked to identify the most prevalent health issues in the community.
- Mental health was identified as the most significant issue (69% of the population).

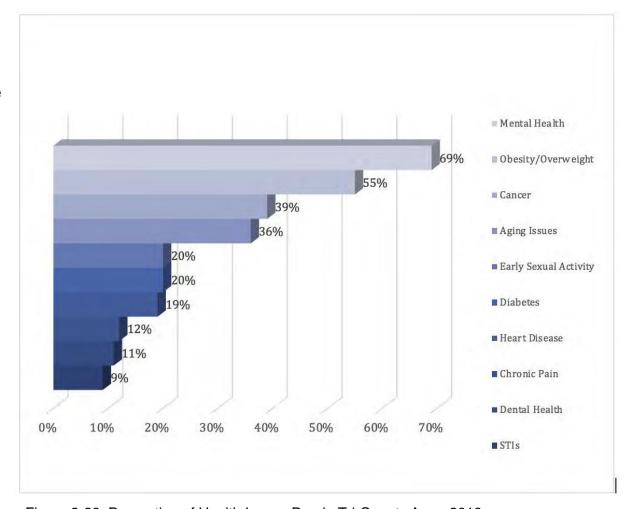

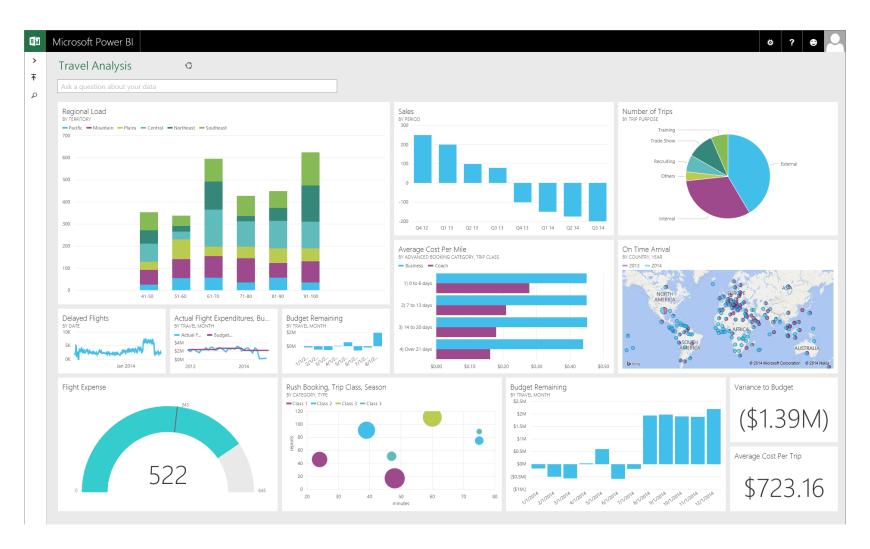

Figure 2-20: Perception of Health Issues Peoria Tri-County Area, 2019
*Note: Percentages do not equal 100, as participants could select up to three issues.

Referral Network Tool & Power Bl

- Referral Network Tool: web-based referral tool to help close the gap between the company that gave the referral and the company that is offering their services.
- Power BI: data visualization tool that helps take complex data and provide accurate and professional looking dashboards.
 - Able to send daily dashboard reports that can be set to automatically refresh and update your dashboard up to 8 TIMES IN ONE DAY!
